

# A lifetime *of* passion

Sulfaro Furniture is a long-established family-owned Australian company that has built a reputation for handcrafting fine furniture for discerning clients. Our organisation is situated locally in Mitcham.

We employ many career driven and passionate craftsmen in a number of fields including upholstery, fabric cutting, wood machinist, carpentry and sewing machinist, in the creation process of some of the world's finest hand crafted furniture.

We are currently seeking a few highly motivated and energetic young applicants able to assist our highly skilled craftsmen at factory hand level with a view to an apprenticeship in upholstery or frame making.

The position can be flexible enough to incorporate your Victorian Certificate of Applied Learning program [ VCAL ], work experience program or school holiday work. The immediate position would entail learning some basic aspects of the upholstery trade as well as assisting our skilled craftsmen around our studio and showroom.

## Work Experience Program

The 'Work Experience Program' at Sulfaro will run all year round from Monday to Fridays throughout 2011. An integral part of our program is to find suitable applicants who wish to embark on a career in the Upholstery Trade.

A possible applicant would benefit from the 'Work Experience Program' by:

- Finding out about themselves (interests, talents and work values)
- Finding out about the world of work (jobs students would enjoy, workplaces students would feel comfortable in, types of people a student may have difficulty dealing with)
- Developing Self Reliance & Confidence (Initiative, Perseverance and Independence).

Interested students are invited to view more about our company by going to the following link: [Working At Sulfaro](#)
